Leader, in which he denounces the proposed counting out of Republican Legislators, and says that "the Greenback party cannot afford to adopt a course that must discipline enough in the party, moderate be defended by technicalities and special speech will be maintained. pleading."

The Socialists of Chicago passed a reso lution at a recent meeting denouncing the "Grant boom" as "a hollow and dangerous trand, a whited sepulchre, in which its builders desire to bury the few liberties yet left to the people, and upon which they expect to erect a Bismarckian despotisin and on its apex seat Grant as their

Members of the for this indispensable article which, Stephens stamp arriving here say that if a affirmed, completely preserves it without any salting whatever. In ly, what untold mischief may lie in a long proof of this important assertion the Times says that butter treated by the new process was placed in a firkin on the 24th of July, and on the 24th of October it was found as sweet and fresh as when first put in. If unprepared it would have been quite spoiled. The consequence of this discovery, which seems to be almost too good to be true, will rebound to the great advantage of the United States. Ungalted butter will be shipped from this country in vast quantities, and one of the most perplexing and annoying difficulties of our own households will also be removed. No doubt the first notion of American farmers on hearing this story will be to laugh at it. They will scarcely credit that a thing at once so desirable and so apparently impossible can have been found out at this late day when it has been vainly sought and desired so long. But seeing is believing, and we are assured that we shall not have to wait long for the joyful demonstration.

Growth of States.

A comparison of the growth of the Postoffice Department by States for the fiscal years 1860 and 1879 shows some curious results. The aggregate receipts almost doubled in the ten years mentioned, but the increase was very disproportionate in ported abstract of the President's message the several States. The following will show at a glance how some States have grown the White House to be unusually bad

Their price is show what subjects are to receive early attention at the coming session. There will be a strong effort from the first to keep the hot-headed ones still. While the policy of restraint was regarded as very necessary long before the close of the extra session, it seems to be considered as very vital now. It will be difficult for the leafers to maintain silence, as is admitted by all here, in view of the fact that the Republicans will have abundant opportunities for the recall the threats of the extra inder the necessity of affixing an additional property of the recall the threats of the extra inder the necessity of affixing an additional postal cards and to be used without add to be used without and to be used without all two cents, and to be used session and its blunders, but if there is tional one cent stamp, There are, however, Republican provo-
